

# Patient Disclaimer and Authorization

Tricefy™ is a communication service licensed to Ultrasound Care. This Disclaimer and Authorization Agreement sets forth the terms and conditions under which you, the undersigned patient, authorize your provider to transmit your ultrasound examination through Trice Imaging, Inc. to a mobile phone number of your choice. This Agreement will become effective on the date of your signature and will terminate after all images throughout your current pregnancy are sent to you.

After you complete and sign this Agreement, a mobile telephone you designate will be entered into our ultrasound system and re-verified with you. When your ultrasound screening is complete, the sonographer will trigger the ultrasound machine to send an encrypted copy of your examination to the Tricefy™ server. The server will reformat and encrypt the file and provide access to the examination through your mobile phone. The text will contain secure links and instructions on how to access the images. Images and videos can be accessed and downloaded to your mobile phone or computer.

Transmission of the images through Trice Imaging, Inc. is not a medical service. The transmitted images are not considered diagnostic medical images and are not a part of your medical record; they are not used for your health care, diagnosis or treatment. If you want to see your medical records, you need to contact Ultrasound Care, who is responsible for maintaining your medical records. Neither Ultrasound Care nor Trice Imaging, Inc. is responsible for the security of the transmitted images once the text and email recipients you have designated download the images. By directing Ultrasound Care to transmit the images to telephone number that you specify, you authorize Ultrasound Care and Trice Imaging, Inc. to provide the images to the person who owns or uses the telephone number and any persons who may have access to the telephone number. We would recommend immediate download of any images, as the link to the images will only be active for a maximum of 90 days. Trice Imaging, Inc. will not store the images on its server for you.

As a licensee of Tricefy™ through Trice Imaging, Inc., Ultrasound Care is permitted to offer the services under the terms and conditions of the license. This is the sole agreement between Trice Imaging, Inc. and Ultrasound Care.
